SOCIAL SCIENCE
EXPERIENTIAL ACTIVITY

HISTORY OF JUTE

Jute has been used since ancient times in Africa and Asia to provide a cordage and weaving fiber from the stem and food from the leaves. In several historical documents (Ain-e-Akbari by Abul Fazal in 1590) during the era of the great Mughal Emperor Akbar (1542-1605) states that the poor villagers of India used to wear clothes made of

- Jute trade is currently centered around the Indian subcontinent.
- Bangladesh is the largest exporter of raw jute, and India is the largest producer as well as largest consumer of jute products in the world.
- Nearly 75% of Jute goods are used as packaging materials, burlap (Hessian), and sacks. Carpet Backing Cloth, the third major Jute outlet, is fast growing in importance.

SSC ACTIVITY

NAME= NANCY ANIL

CLASSIFICATION OF INDUSTRIES

- There are various manufactured products you use in our daily life such as- transistors, electric bulbs, vegetable oil, cement, glassware, petrol, matches, scooters, automobiles, medicine, and so on
- If we classify the various industries based on A particular criterion then we would be able to understand their manufacturing better.

ON THE BASIS OF SOURCE OF RAW MATERIALS USED:

- Agro based – cotton, woolen,jute,silk,textile,rubber,and sugar, tea,coffee,edible oil.

Powers of P.M.

1. He chairs cabinet meetings.
2. He commissions the work of different departments.
3. His decisions are final in case disagreements arise between departments.
4. He exercises general supervision of different ministries.
5. He initiates general orders in the ministry.
6. He also has the power to dismiss ministers.
7. The Prime Minister distributes and redistributes work to the ministers.
8. When the Prime Minister goes, the entire machinery quits.

Mineral Based Industry

Mineral based industry

- Manufacturing industries that use mineral as raw material are called mineral-based industries.
- The iron and steel industry is the basic industry on which all other industries depend.

InShOt

- China has become the world's largest producer and consumer of steel, leaving India far behind.
- Most steel manufacturing industries are located in the Chhota Nagpur pleatue region.

InShOt

- The production and per capita consumption of steel is a measure of a economic development.
- The main raw material used in the iron and steel industry are iron ore, coal and limestone.

Topic: Mineral Based Industry

InShOt

Classification of Industry

Classification of industries

- On the basis of source of Raw Material is used
- On the basis of their main role
- On the basis of capital investment
- On the basis of ownership
- On the basis of bulk and weight of Raw Material and finished goods

Classification of Industries

Based on the scale of operations industries are divided into large scale industries, medium scale industries, small scale industries and cottage industry.

Small Scale Industry

It may involve domestic production. For example, hosiery, hand tools and stationery items.

RISHIKUL VIDYAPEETH SONEPAT SECONDARY WING

Class: X B
Subject : Social Science
Topic: Classification of Industries
Presented by: Sameer Duggal

The creative and conscious learners of classes IX & X participated in an experiential learning activity of Social Science with great enthusiasm. They participated in the activity 'Flow Chart on Classification of Manufacturing Industries(X) & Chart on Power of Prime Minister,

President & Difference between Lok Sabha and Rajya Sabha' and showcased their knowledge about the politics and industries. The teachers praised the efforts of the students and motivated them to participate in various activities to raise their confidence.

Parent's Testimonials

Thank you teachers for helping the students create new understanding and enhance their knowledge by participating in an array of activities. The children are properly guided to ponder over the international issues like Environmental Pollution, International Terrorism, Declining Standards of Moral Values, etc which are really essential to solve. So, really its outstanding.

Thank you Rishikul for helping our children to become efficient, responsible and ideal citizens of tomorrow. I really appreciate the efforts of the teachers who are helping the students to build their confidence in every field so that they may overcome any hurdle in life.

Sunil Kumar F/ Ayazh IXD

Thank you Rishikul for providing every assistance and support to our children. It is true that the school ensures that they are confident, upright and sincere. No doubt, the team of dedicated teachers are striving hard to help the students attain excellence in every field, may it be academics or sports. Really, our children are getting world class education.

Kuldeep Singh F/
Krish Singh IXD

Dear Teachers,
Thanks a lot for your remarkable efforts. The way our children are taught during this tough period of Covid 19 & the way you make them aware of the global issues like global warming, pollution, etc. and their duties towards the society is really inspiring. Thank you for channelizing their potentials in the right directions. Hats off to the dedicated mentors

Being a parent, I feel that Rishikul Vidyapeeth provides the students ample opportunities and situations that not only render them momentous exposure but also instil confidence of meeting the challenges through the course of life. Here, the children are taught the lesson of Self Respect, Confidence & Success. Really, it is a temple of Learning

I am very happy to see my ward participating enthusiastically in various activities. He is actively maintaining his notebooks, discussing his doubts with his teachers, full filling his duties towards his parents also. Its really a desire of every parent and I feel my ward has learnt all these from his teachers and friends, I am immensely satisfied with the progress of my ward at Rishikul
