I am very happy to see that my child is learning a lot. Thanks a lot!

I am mother of Navika studying in class Nursery. When I started to look for a school for Navika, I was looking for an institution where teachers teach according to the level of the students. During the first child teacher interaction at the time of admission, I felt this was present at Rishikul. My daughter went to school for only two weeks before the lock down, but a good bonding between Navika and her class teacher developed in a short span of time. After lockdown online classes started, and this experience has also been wonderful. During the Online Classes, teachers try to interact with all students and even make them eager to respond to the questions. It is very fruitful for the students. Thanks

Suman Mam your teaching is the best. You are so kind and caring. You treat all the students like a mother. Online classes are very helpful in this pandemic. As schools are closed so these Online Classes proved very fruitful for the students.
