Parent's Testimonials

I am really happy and fully satisfied with the teaching method and teaching facilities of the school. The online and offline classes that are arranged for our children during this tough period of Covid-19 is really inspiring

I enrolled my child in Rishikul Vidyapeeth in 2017. It was the best decision we've ever made for him. Since then, my child has improved not only academically, but socially and spiritually as well. The teachers are all very attentive to our child's needs and are always encouraging.

It is right that the school facilitates all the conditions where learning is encouraged. Even during this tough time of Covid 19, when everything is stopped, but learning is still continued with great enthusiasm, only due to Rishikul. We are proud to be the part of Rishikul. Thank You Rishikul.

Being a working parent, I feel, I am not able to give much time to my child but here at Rishikul, I always find my ward is getting proper attention, love, care and support. He is enthusiastically participating in various activities, raising his confidence and learning each and everything curiously. Thanks to Rishikul for creating the Global leaders.

Rishikul Vidyapeeth is not just a name, its a school with a difference, its a right place for quality education. I want to congratulate the school authorities for successfully conducting online classes for the betterment of students.

It is really very much true that Rishikul is teaching our children moral values, manners, love, peace and harmony. At every step of life, I feel these qualities are very supportive. And the same my ward is learning. Thank you Rishikul for teaching our children how to be a human being.

At Rishikul, the students are given the ample opportunities to grow and progress. They are motivated at each step of life and inspired to do the extra ordinary deeds. They learn to adjust even during the worst situations. Hats off to the team of mentors who guide our children to excel in life. Thank you Rishikul!

Rishikul teaches the students that education is not confined to books and libraries. The aim of education is to build integrated personalities. So, for the harmonious development, the school provides sports facilities. Fields, Gyms and playgrounds are made available to the students for physical and mental toughness & fitness.
